Ms. Ochoa,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion. What is the GSA planning to do to protect our taxpayer dollars, if Trump refused to divest fully from the hotel or tries to place his company in the control of his children? I am asking that the GSA immediately to end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Sincerely,

Dear GSA Fraudnet:

As a citizen, I'd like to know what action the GSA is going to take--and when--regarding President Trump's currently being in flagrant violation of the Old Post Office Lease. Will the GSA be taking steps to terminate the lease, effective immediately?

If not, please advise me how the GSA is planning on fulfilling its own ethical obligations to the public. As the GSA should be well aware, to protect the contracting process from corruption, federal contracting regulations mandate that "Government business shall be conducted in a manner above reproach . . . to avoid . . . even the appearance of a conflict of interest in Government-contractor relationships."

If the GSA continues to knowingly be a party to a lease that is illegally held by an elected official, the GSA will be violating both the public trust--and the law. As a citizen, I will not be silent about this, or any other attempts to corrupt or demean our democracy.

The contract language is very clear: "No ... elected official of the Government of the United States ... shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom..." This president is entering office with an unprecedented number of serious conflicts of interest, but this is one in which your agency has the power to act. Hello,

I am very concerned that President-elect Donald Trump is the landlord and tenant of the Old Post Office Pavilion. It is extremely unethical for taxpayer dollars to go toward his property, and as President, Trump should know better than to mix business with politics like this. I am asking, along with many many others I'm sure, for the GSA to end its business relationship with Trump and his family because this kind of conflict of interest will hinder democracy and honesty. Thank you.

Dear Ms. Roth and Ms. Ochea,

I am about writing President-elect Donald Trump's lease for the Old Post Office Pavilion. What is the GSA planning on doing to protect our taxpayer dollars and our government integrity if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children? I am asking that the GSA end its business relationship with Donald Trump and his family because it will otherwise be in direct violation of the terms of the lease, and because it presents a conflict of interest that threatens our democracy.

The contract language is clear: "No ... elected official of the Government of the United States ... shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom..."

Soon the new administrator of the agency will be appointed by Trump so this will present an even greater conflict of interest. GSA employees will have a difficult time handling the Trump lease and will be conflicted between their duty to protect the interests of the building's landlord, the taxpayers and the government, and their GSA administrator. The term of the lease as quoted above was included for this exact reason.

To allow this lease to continue with Donald Trump or any business entity in which he has a financial interest as lessee presents a clear conflict of interest and a clear violation of the lease terms, and I am asking that as an independent agency, the GSA perform its duty to the taxpayer and terminate the same.

Sincerely,

I strongly urge the GSA to terminate the 60-year lease of the post office pavilion where Trump Hotel is located. The lease terms clearly require GSA to take action when a government official, or even his children, are involved as the President-elect is. In addition, this is an ethical imperative. Honoring the letter and intent of the lease requirements is essential to maintaining the rule of law. The absence of appropriate strong action will severely undermine trust in the integrity of GSA and our government.

This was my original email:

To whom it may concern:

You've previously stated that you couldn't end your lease contract with Donald Trump to the Old Post Office Pavilion, now Trump International Hotel, because he wasn't yet an elected official. As of the afternoon of January 20th, he is now the president of this country. He is now the boss of the person that he rents from. This is a conflict of interest and in direct violation of the lease. Please take immediate action.

The full language of section 37.19 is below:

No member or delegate to Congress, or elected official of the Government of the United States or the Government of the District of Columbia, shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom; provided, however, that this provision shall not be construed as extending to any Person who may be a shareholder or other beneficial

owner of any publicly held corporation or other entity, if this Lease is for the general benefit of such corporation or other entity.

Thank you for your time and your reply.

We waited patiently for your to make your decision. It now seems the GSA feels that the Trump dynasty can freely profit from the hotel which is in direct conflict with the law noted above.

How was this decision reached? I will be joining with other concerned citizens to demand an investigation. Your actions are shameful.

Hi,

As a businessman, Trump exploited legal loopholes to pay less in taxes and contract fees. We can not allow him to continue this practice by pushing the legal bounds of conflicts of interest while in office.

I believe that elected officials must be held to the highest ethical standards, especially when making money off of federal resources. I am emailing you to support the letter sent on March 29th asking the Inspector General to review the Old Post Office lease.

Sincerely,

Inspector General Ochoa,

I am writing about President-elect Donald Trump's lease for the old post office building. What is the GSA planning on doing to protect our taxpayer dollars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children?

I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Sincerely,

Hello Ms. Ochoa.

I am writing because of my concerns regarding President-elect Donald Trump's lease for the Old Post Office Pavilion. It is my understanding that the lease must be terminated since he will be an elected official. Please let me know what your plans are for making sure that he fully divests from the hotel - and putting his company in control of his children is not a sufficient divestment. My preference is that the GSA immediately end its business relationship with Donald Trump and his family. This relationship presents a serious conflict of interest that threatens our democracy.

Thank you for your attention to this. I await your response.

Subject: please cancel the lease for Trump International before 12/15/16 or prepare to cancel it on 12/15/16. Inaction now will trap OIG

I am writing to implore OIG to terminate the contract for Trump International Hotel in D.C. Please be pro-active and plan and prepare so that OIG can adequately respond on 12/15/16 in the event that the president elect fails to properly divest his businesses in a manner that is ethically sound to a reasonable person. This is the 11th hour and time is not on your side any longer.

These are facts you must already know:

- 1- No elected office of the US government shall be party to, share in, or benefit from the contract, per clause 37.19 of the Trump International Hotel contract.
- 2- Foreign diplomats and special interest groups have already booked rooms at Trump International to get on Trump's good side which will be a violation of the emolument clause come 1/20/17.
- 3- The administrator of the GSA will be appointed by Trump when he becomes president.
- 4- When Trump becomes president, he will indirectly or directly be tenant and landlord since the GSA is leasing it to the Trump Organization.
- 5- A civil servant at GSA is going to sit down with the children of the president of the United States to negotiate adjustments to a multimillion-dollar lease on an annual basis.

OIG should have intervened and added a clause to allow it to withdraw and cancel the contract when Trump announced his presidential candidacy in mid 2015. In light of NY attorney general's validation of fraud claims against Trump University and the settlement, OIG should have used that to withdraw from the D.C. hotel contract. OIG has a responsibility to withdraw from the contract and settle in court if Trump sues. OIG should never have allowed the contract to be signed while forgoing the standard clause that permits GSA to cancel the contract to protect government and public interest.

OIG must be prepared to act swiftly in the event that the president elect does not announce an acceptable plan to absolve himself of personal conflict of interests. His attorneys will argue that since his adult children are not his dependents, if he divests all business management to his children, it is good enough. Is this good enough? No. Why? His children were active in his campaign and part of his transition team and will likely be active in the White House as personal advisors to the president. OIG already failed to take pro-active and preventive steps in 2015.

If OIG continues to do nothing, it is permitting kleptocracy, corruption, and a total breakdown of the

values of our democracy. Unprecedented conflict of interests necessitates unprecedented action by OIG to protect the integrity of OIG's mission and its existence.

Sincerely,

I am writing to register my serious concern about President-elect Donald Trump's lease of the Old Post Office building. Your office is responsible for detecting and preventing fraud and mismanagement in the GSA, and President-elect Trump is positioned to exploit the powers of the presidency by being both landlord and tenant of the old post office. Clause 37.19 of the contract between GSA and the Trump Organization specifically says that no elected official of the United States government shall be party to, share in, or benefit from the contract. President-elect Donald Trump's position puts him in violation of the terms of the contract, and I am asking that the GSA immediately review this contract and remedy the conflict of interest.

Thank you for upholding the public interest by investigating and ending all business dealings with the Trump Organization.

Subject: Public comment on Old Post Office Pavillion lease violation

Dear Ms. Roth:

I read Steven Schooner's op-ed in *Government Executive* magazine about the Trump Old Post Office LLC's lease on the Old Post Office Pavillion. President-elect Trump has many conflicts of interest, but few that spell out the direct terms of the conflict so clearly in a written contract: "No ... elected official of the Government of the United States ... shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom..." The violation of this clause is clear and it is the responsibility of the GSA to the American people to terminate this lease. You invoke "integrity" in your public statement on operational excellence. I strongly urge you uphold this claim to integrity and to terminate the lease immediately.

Sincerely,

Mrs. Ochoa,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion. What is the GSA planning on doing to protect our taxpayer dollars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children? I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Sincerely,

If you could please explain how the President does not personally profit from the situation concerning his hotel? I would appreciate citing the specific guidelines, how he would be in compliance with those guidelines and showing precedence from previous situations that would allow him to continue to operate in such a manner. I am officially requesting a detailed response from you or someone in your department. Thank you for your time.

Folks,

It looks like you have a case for investigation, the Trump hotel in DC. Since your people noted that the president's ownership of the hotel is legal and not a violation of contract, even though language prohibits such ownership, the OIG has a viable case for investigation. Go to it and make us all proud.

Dear Ms. Ochoa,

I am about writing President-elect Donald Trump's lease for the Old Post Office Pavilion. I am asking that the GSA end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

The contract language is clear: "No ... elected official of the Government of the United States ... shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom..."

Soon the new administrator of the agency will be appointed by Trump so this will present an even greater conflict of interest. GSA employees will have a difficult time handling the Trump lease and will be conflicted between their duty to protect the interests of the building's landlord, the taxpayers and the government, and their GSA administrator.

This is a blatant conflict of interest and I am asking that as an independent agency, the GSA perform its duty to the taxpayer.

Ms. Ochoa

GSA's decision to let Trump's corruption slide is disappointing. The GSA has added themselves to a growing list of government agencies without credibility. The plain language of the lease prohibits Trump's ownership, that has not changed. He still owns the hotel, whether he is involved in the daily management or not. Since the time of the Founding of America, this type of profit off of our government by the President has been prohibited.

Please put the country first and reconsider the GSA's decision.

Please let me know the status of the GSA lease on the Old Post Office.

Per the terms of the lease, an elected official may not have any interest in the leased property. President Trump appears to be in violation of the lease. So, to be quite blunt, what is going on?

I would like to add another reason for insisting that GSA terminate its lease of the Old Post Office Building to Trump: that is that any lodging acquired in the hotel by officers of or persons contracted by foreign governments would in effect be violating the emoluments clause of the Constitution, which prohibits gifts to employees of the U.S. Government, including the President.

Dear Ms. Ochoa,

I am writing to express my astonishment and outrage at the GSA's failure to enforce the terms of the Trump International Hotel's lease in the Old Post Office Building. What part of "elected official" do you fail to understand. This action by your office is giving government sanction to a blatant and egregious conflict of interest on the part of Donald J. Trump, current holder of this nation's highest office. How can any elected official ever be held to account, when THIS is the standard your office is setting. I am appalled at the depths to which oversight and ethics have sunk in the few short weeks of the current administration. Your office is aiding and abetting this decline.

Sincerely,

Hello,

I'm taking this occasion to urge the GSA Office of the Inspector General to immediately launch a full, comprehensive, and transparent investigation into reported violations of the lease between the GSA and Donald Trump concerning the Old Post Office Building in Washington DC. Based on reporting in multiple, respected news outlets across the country, there appear to be three major issues with this relationship.

- Donald Trump, via his various organizations, will be the object of a serious conflict of interest concerning the GSA lease with the Old Post Office Building, the moment he takes the oath of office on Jan. 20, 2017. It is unacceptable that he remains as a party in a contractual business relationship with the U.S. government while he is the President. This conflict of interest cannot be allowed to stand.
- It's clear that Trump will be in violation of the clause in the lease which prohibits any official of the United States from receiving any benefit from the lease. Clearly, as the owner of the company leasing the hotel, Trump will receive benefits from its operations, in the form of income. This, too, cannot be allowed to continue.
- Reports have been published this week that contractors who were never paid after working on the hotel have filed liens totaling approximately \$5 million. This news comes as no surprise, as it became clear during the campaign that Trump has a twenty-year pattern of stiffing contractors and employees alike, betting that they won't bother to sue for a variety of reasons. However, since this property is the property of the United States, it's inconceivable to me that the government would allow a leaser to get away with this kind of criminal activity.

The IG is an independent public servant, charged with "... detecting and preventing fraud, waste, and mismanagement in the General Services Administration's (GSA) programs and

operations." If the GSA does nothing regarding this lease, then it will be complicit in fraud and mismanagement, to the extent that Trump is the object of a serious conflict of interest, continues to receive monetary benefits from his ownership of this hotel, and steals from his contractors.

The IG must immediately launch an investigation into these charges and take the appropriate action, up to and including canceling the lease or initiating criminal action, without fear or favor.

Sincerely,

Subject: Trump lease of the Old Post Office Pavilion

Dear Ms. Roth and Ms. Ochea,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion. WHAT IS THE GSA PLANNING TO DO TO PROTECT OUR TAXPAYER DOLLARS AND OUR GOVERNMENT INTEGRITY IF DONALD TRUMP REFUSES TO DIVEST FULLY FROM THE HOTEL OR TRIES TO PLACE HIS COMPANY IN THE CONTROL OF HIS CHILDREN? I ask that the GSA end its business relationship with Donald Trump and his family because it will otherwise be in direct violation of the terms of the lease, and because it presents a conflict of interest that threatens our democracy.

The contract language is clear: "No ... elected official of the Government of the United States ... shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom..."

Soon the new administrator of the agency will be appointed by Trump so this will present an even greater conflict of interest. GSA employees will have a difficult time handling the Trump lease and will be conflicted between their duty to protect the interests of the building's landlord, the taxpayers and the government, and their GSA administrator. The term of the lease as quoted above was included for this exact reason.

To allow this lease to continue with Donald Trump or any business entity in which he has a financial interest as lessee presents a clear conflict of interest and a clear violation of the lease terms, and I am asking that as an independent agency, the GSA perform its duty to the taxpayer and terminate the same.

Sincerely,

Re: Old Post Office Building, Washington, D.C.

Dear Sir or Madam:

Attached please find letter and a complaint related to the Old Post Office Building, a property owned by the United States Government. The property is leased by the GSA to President Trump's company, Trump Old Post Office LLC. The complaint concerns President Trump's violation of a provision in the lease prohibiting elected officials from benefitting from the lease. It also concerns President Trump's violation of conflict of interest clauses in the Constitution of the United States that prohibit his acceptance of emoluments from the United States, the States and foreign governments. The violations relate to President Trump's operation and ownership of the Trump International Hotel in the Old Post Office building.

Thank you for your time and consideration of this matter.

Hello,

There are a lot of suggestions for political actions concerning President Elect Trump, and one passed my notice today. It concerned the leasing of a U. S. Post Office in NYC by Mr. Trump for use as a hotel. The post said that in the lease contract there was language specifying that no elected official of the government could be financially connected to the lease, and that the lease with Mr. Trump should be terminated before his inauguration.

The email address given to contact the government on this matter was media.gsa.gov. Is this the correct address? Or is your office the one that would investigate these allegations?

Thank you,

Dear Ms. Ochoa,

President Trump's luxury DC hotel is both leased by and occupied by the US government. This represents an obvious and clear conflict of interest, and this situation warrants a immediate and thorough investigation.

Thank you!

Dear Ms. Ochoa,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion. What is the GSA planning on doing to protect our taxpayer doallars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children? I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a clear conflict of interest. I am mystified why this decision is even up for debate. I find it frightening that his personal business is tied up with his obligations to do whats best for this country.

Thank you for your time.

Dear Ms. Carol F. Ochoa,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion in D.C.

What is the GSA planning on doing to protect our taxpayer dollars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children?

I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Thank you for your time and interest in this matter,

All the best,

Subject: regarding the Old Post Office Pavillion

Dear Ms. Ochoa,

I grew up in Northern Virginia and worked one summer at the Old Post Office Pavillion selling silver and gold jewelry from a cart. This would have been the mid/late 1980s. I LOVED working downtown, particularly in such a beautiful building.

I am writing you today about President-elect Donald Trump's lease on that very same building. I was upset when the building was leased to Trump, but also understood that sometimes business is business and that I might not be happy with the decisions the government makes.

However, now that Trump IS President-elect, I would like to know what the GSA is planning to do in order to protect our taxpayer dollars if he refuses to divest fully from the hotel or tries to place his company in the control of his children.

If President-elect Trump does not put his holdings into a blind trust or if he does not liquidate his holdings, I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Subject: Conflicts of interest and the post office lease

I'm writing about President-Elect Donald Trump's lease for the old post office building.

I work as a professional in identifying and managing conflicts of interest, and am extremely concerned about the conflicts of interest presented by the President-Elect's lease of this building. Even if he removes himself from day-to-day leadership of the business, or steps back entirely in favor of his children, there is still a significant conflict of interest.

In my role as a conflict of interest manager for a university, I would not allow a faculty member or staff member to consider these steps as sufficient management for a conflict of interest. They *certainly* should not be sufficient for a government official.

I am asking that the GSA immediately end its business relationship with Donald Trump and his family. In my professional opinion, there is no other step that would sufficiently manage or mitigate this conflict, and our democracy is too important to let it be threatened by a lease.

To Whom It May Concern:

As I understand, one of the terms of the lease of the D.C. Old Post Office to the Trump Organization for its new hotel is that no elected official may have any interest in the leased property. News reports that President-Elect Trump has been pressuring foreign embassies to put up guests at his hotel and that special interest groups are holding events at the hotel to curry favor with the president elect make it obvious why such a lease provision is in the public interest.

I write to ask the G.S.A. to terminate the lease for the Trump Hotel at the Old Post Office. Allowing the president to have an interest in a hotel leased from the federal government creates obvious conflicts of interest. So too does looking the other way from any lease violations.

Thank you for your attention to this matter.

It is inappropriate for a President -Elect and certainly a sitting President to be both landlord and tenant of this hotel. Dear Inspector General Carol F. Ochoa,

I am writing about President-elect Donald Trump's lease for the Old Post Office Pavilion. What is the GSA planning on doing to protect our taxpayer dollars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children? I am asking that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

Thank you for your cooperation,

Dear Carol Ochoa:

I find it incredibly concerning that the President-Elect shows no compunction about profiting financially from his tenure in elected office. I believe this is a disturbing indication of where his priorities lie—with his personal monetary gain rather than with the safety, security, and benefit of the citizens of the United States.

There are many potential conflicts of interest but I am writing specifically about his lease for the Old Post Office Pavilion. What plans does the GSA have for protecting taxpayer dollars in the event the President Elect OR his family does not divest fully from the hotel?

I call on the GSA to end its business relations immediately with the President-Elect AND his family because it reflects a troubling conflict of interest that threatens the tenets of democracy.

Sincerely, (b) (6), (b) (7)(C)

Subject: Comment: End business dealings with President-Elect Trump and his family

Hello,

My name is (b) (6), (b) (7)(C), and I am a concerned citizen from Sharon, MA. I am very concerned that President-Elect Donald Trump has a lease on the Old Post Office Pavilion. If he does not divest fully from his hotels, and does not place them in a blind trust (giving them to his children to control doesn't count), I ask that the GSA ENDS its business relationship with Trump and his family. It is a conflict of interest.

Sincerely,

(b) (6), (b) (7)(C)

Dear Carol Ochoa,

I am writing in regard to President-elect Donald Trump's lease for the Old Post Office Pavillion. What is the GSA planning to do to protect our taxpayer dollars if Donald Trump refuses to divest fully from the hotel or tries to place his company in the control of his children. I am requesting that the GSA immediately end its business relationship with Donald Trump and his family because it presents a conflict of interest that threatens our democracy.

The GSA needs to take a firm stance on this, and by doing so to establish a clear line as a model for the multitude of other conflicts of interest. In the wake of Donald Trump's call with the president of Taiwan, the American people shouldn't have to wonder if his own business interests were the catalyst for this communication. And we shouldn't have to wonder if international diplomats are currying his favor by staying in the Old Post Office Hotel.

It is imperative that the GSA end its business relationship with Donald Trump.

Sincerely,

Subject: Please Intervene and Stop the Corruption Now
Date: 12/11/2016 02:38 PM

Departments of Inspector Generals,

America, the Beautiful, my heart aches for us. Trump's corruption MUST BE STOPPED NOW. The train is going off the rails about to smash into the cliff. It must be stopped before it crashes. We cannot look away and pretend this is not happening.

The President's role, cabinet members, are CIVIL SERVANT positions. It is an Honor to hold these positions. However, the Trump Administration is planning to use our Government to serve their pocketbooks, and they are doing so blatantly, with no shame. This is not what our founding father intended. This is not ethical. And it's in complete opposite interest of the American people. How in this day and age can we actually be allowing this to happen??

Do not forget: Trump said when the country's economy collapsed, It was a good thing for him. He publically bragged and was proud to personally benefit off the backs of millions of people!!

"When people show you who they are, believe them the first time." And when someone shows you who they are the first time, they are usually on best manners, trying to make a good impression. It's only going to keep getting worse from here.

- Trump offended he won "Person" of the Year. Because it should be "Man" of the Year. Being lumped with woman is considered demeaning to him. That is disrespect for 50+% of America's population.

- Exxon, 2nd largest Corp. in the WORLD. Drills in 50 counties, 6 continents. The CEO makes \$25Mil/yr and \$218Mil Exxon Stocks. But he's going to take on a Civil Servant position for the goodness of his heart? Right....Catastrophic conflict of interest.

- Russia: Proven Russian interference with our election, Exxon's close ties to Russia. This cannot be ignored and must be investigated.

- Financial Conflicts of Interest of Trump and all cabinet members. If they are to make unbiased, best decisions for our country, they cannot have personal financial gain.

- Environmental Cabinet Pick: Clear connection with the Exxon CEO pick.

- Turning down security briefings. Bringing his family into the politics for guidance. His rapid fire public remarks...just wait until gets his hands on nukes. He clearly doesn't have the ability to hold back when upset. Requiring more money be spent on him for security protection.

- A privileged rich heir to head up public schools..yet she thinks Federal money should go to the rich in tax breaks for private schooling. Ben Carson, from himself "has no government experience" and has "never run a federal agency." Steve Bannon: white supremacy now has a foundation to come alive again.

- Corporate tax breaks will negatively impact government debt. With more minimum wage jobs, Government will be subsidizing large corporations on both ends: tax breaks and supplementing the low paid workers with food stamps, health insurance, etc. How is this the right direction for all people in this country? It only makes the few rich, richer.

- Immigration: Look at history, the world celebrates accomplishment when walls are torn down! How about a middle of the road solution: Current illegals get a red carpet back to their home land. And those that want to stay, are required to follow a legal process of background checks, etc., to be accepted in or not. And make the current process for those that are following it legally a bit easier.

I realize that Trump is the backlash of a far democratic, man of color. But the pendulum has swung too far. And we need you and others to step in and bring the pendulum a bit more back to center.

About me: I am typically a Republican. I grew up in poverty, but through strong work ethic now run my own successful small business and own several rental properties. While I'm in the top 2% of this country, I get reamed in taxes. Yep, I'm the upper middle class that gets ultra screwed. How is it the American Dream to work this hard, climb this far, and pay more percentage of my income than the .5% corporations and billionaires. We need to make our country an easier place to

achieve the American Dream for those climbing up from the bottom.

Please do right for ALL Americans. Intervene Now!

America! America! God shed His grace on thee, And crown thy good with
brotherhood. From sea to shining sea!

Sincerely,

A Proud American

I believe action needs to be taken to terminate the lease before President Elect Trump (an "elected official") is sworn in as President.

We all know he will appoint a replacement Inspector General that will look favorably on this situation and not pursue it. While this is only one of many conflicts of interest, it is the one with the most clear cut conflict.

I am writing about the lease associated with the Old Post Office Pavilion at 1100 Pennsylvania Avenue, NW, in Washington, D.C.

As you are well aware, The Trump Organization currently holds a sixty year lease on this property. Donald J. Trump is, of course, also the President-elect.

How does the GSA intend to protect taxpayers if Mr. Trump refuses to divest his interest in the Trump International Hotel at this location? How does the GSA intend to protect taxpayers if he puts his company in the control of his children?

The current lease with The Trump Organization creates a clear conflict of interest. I ask that the GSA terminate its business relationship with Mr. Trump, the Trump family, and The Trump Organization because of this conflict of interest and the threat that it poses to government transparency and the rule of law.

Respectfully yours,

The new Trump Hotel, opened by President Trump in Washington, D.C., is leased to him by the federal government.

There's a clause in the lease that says no elected official can have an interest in the hotel. Based on this clear conflict of interest I urge you to terminate this lease.

I write today to ask that, if Mr. Trump does not divest himself of ties to the former post office property hotel AND remove his name from said hotel prior to taking office, that the GSA immediately terminate the lease for the Trump Hotel at the former post office in Washington, D.C.

I understand that the lease states that no elected office may have any interest in the leased property. Even retaining his name on the hotel is a sign of interest. The GSA needs to ensure that the terms of the lease are upheld to the fullest extent.

When Donald Trump takes the oath of office today, he will immediately be in violation of the terms of the lease, which state that no elected official may have any interest in the leased property.

The GSA itself has previously confirmed that this would be a violation. It will open the door to numerous conflicts of interest and opportunities for the President to use his office to enrich himself and his family.

This is a clear case of abuse and conflict of interest. I would like to post this information on Facebook so we citizens can act.

I was just reading an article about the Trump lease on the Old US Post Office.

I believe action needs to be taken on the lease, that it should be terminated, before President Elect Trump (an "elected official") is sworn in as President.

We all know he will appoint a replacement that will look favorably on this situation and not pursue it.

Thank you

I am writing today to urge the GSA to immediately terminate the lease for the Trump Hotel at the former post office in Washington, D.C. The President-elect is in clear violation of the terms of the lease, which state that no elected official may have any interest in the leased property. Please investigate the contract between the D.C. post office and Trump. On 20 Jan, Trump will be in violation of this contract. Please also investigate any other contracts that would involve a conflict of interest on the part of Trump, his cabinet, and his family. Thank you.

GSA releases statement on Old Post Office lease

December 14, 2016

WASHINGTON -- Today the U.S. General Services Administration (GSA) released the following statement on the Old Post Office building lease:

"GSA does not have a position that the lease provision requires the President-elect to divest of his financial interests. We can make no definitive statement at this time about what would constitute a breach of the agreement, and to do so now would be premature. In fact, no determination regarding the Old Post Office can be completed until the full circumstances surrounding the President-elect's business arrangements have been finalized and he has assumed office. GSA is committed to responsibly administering all of the leases to which it is a party."

The full language of section 37.19 is below:

No member or delegate to Congress, or elected official of the Government of the United States or the Government of the District of Columbia, shall be admitted to any share or part of this Lease, or to any benefit that may arise therefrom; provided, however, that this provision shall not be construed as extending to any Person who may be a shareholder or other beneficial owner of any publicly held corporation or other entity, if this Lease is for the general benefit of such corporation or other entity.

RE: Trump Old Post Office LLC lease for Old Post Office Pavilion

Donald Trump being elected to office appears to me to violate the Trump Old Post Office LLC lease.

If you believe there is a violation of the intent of the contract.

Please terminate the lease as soon as Donald Trump becomes an elected official of the Government of the United States.

All of the government law experts I have seen say that the contract is clear in stating "No member or delegate to Congress, or elected official of the Government of the United States or the Government of the District of Columbia, shall be admitted to any share or part of this Lease or to any benefit that may arise therefrom."

Also if there is a question of the meaning of "admitted"

"admitted... to any benefit that may arise therefrom" is an ongoing clause not only relevant at the signing of the contract.

and/or

at renegotiation of the yearly fee an elected official can not be admitted to the renegotiated contract.

If one person openly violates the law

then everyone can violate the law and the whole system falls apart.

Hi—We are living in an historic time

when many Americans believe that our government is in jeopardy. I must admit that any hint of cover-up or even partisan protection of our President is unnerving. To this end, I ask how long it takes to review a lease? Either Trump is in violation of the conflict of interest rules or he is not. The American people deserve strength and leadership from its watchdog agencies. Please make a public determination re Trump's ownership of this property.
